

# DESMOND'S NOTES

## EXPLODING CAKE!

What you need:

a)  Balloon

b)  AND  Tape

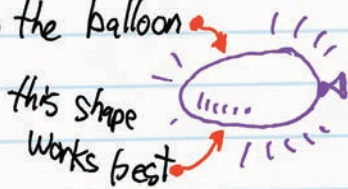

c) piece of cardboard to build the "cake" on

(Cover with tinfoil) 

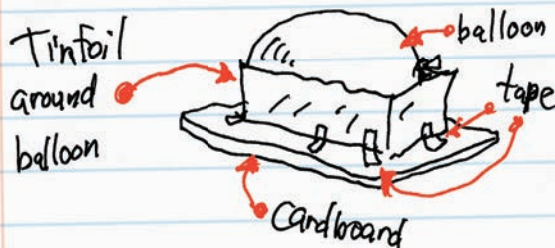

d) Whipped cream and icing (optional)

2) Also, any cake decorations like sprinkles or candies.

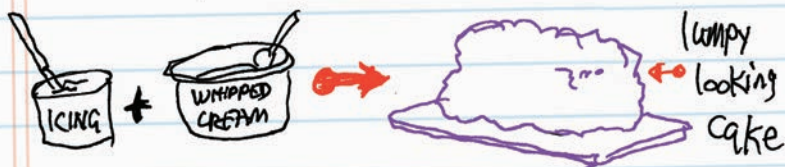

① First, blow up the balloon

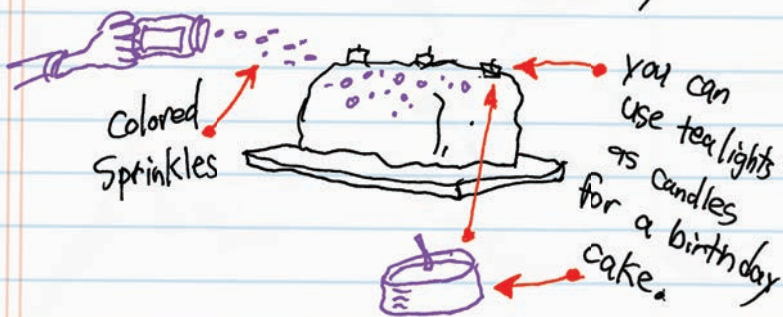

② Put balloon on cardboard and build a tinfoil wall around it, using pieces of tape to secure it.

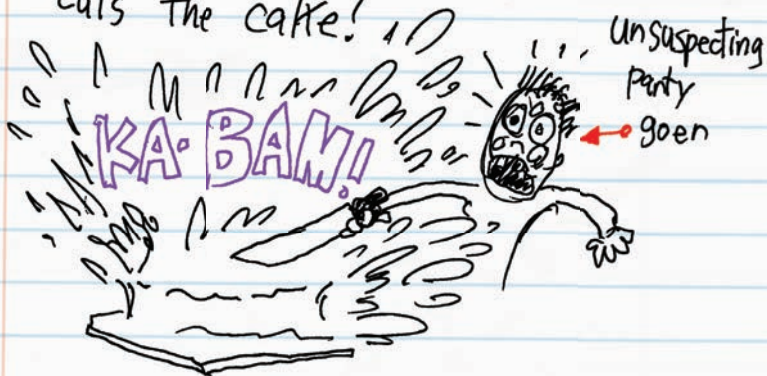

③ Cover the whole thing with whipped cream (you can mix canned icing with the whipped cream to make it stick easier to the balloon and tinfoil).

- ④ decorate cake with sprinkles or whatever you have (it makes it look more real!)

- ⑤ Stand back when somebody cuts the cake!

- ⑥ Best to do this outside... I don't want your mom getting mad at me, got it?
