

Desmond's Phantom Knocker!

This effect works best with a two-story house, you upstairs and your victim (heh, heh) directly underneath, downstairs.

What you need:

a long piece of string

+ a tennis ball or pinky ball

①

tie the string to the wall.

② throw the ball out of upstairs window holding onto the string

③ let ball bank on downstairs window, then pull up fast! Person downstairs hears the noise and sees nobody there and gets scared! Repeat!

This effect also works great with "Desmond's Perfect Ghost!"
