

DESMOND PUCKET

BLOODY POPCORN

Gross? Yes. But yummy! And easy to make and eat. Food paste works best, but if you can't find it at your grocery store, food gel will work in a pinch—just use a whisk to incorporate into the butter.

Ingredients

2 quarts popped popcorn
2 tablespoons melted butter
Red food paste

Directions

Put the popcorn into a large bowl. Add a little red food paste to the melted butter, stir well, and drizzle over popcorn. Stir gently to spread the color throughout the popcorn.
