

DESMOND PUCKET

MONSTER FINGERS

These devilish digits are delightfully healthy and frightfully fun! Baby carrots are easier for snacking, but not as creepy and finger-like, so use larger carrots for your display fingers and throw some baby carrots on the side, along with some tortilla chips for dipping. If you're worried about being grossed out by the guacamole, substitute onion dip.

Ingredients

- Medium length carrots
- Almond slivers
- Cream cheese (optional)
- Prepared guacamole

Directions

In a small bowl place prepared guacamole. For each finger, carefully cut a small sliver on the top of the carrot (ask for your help if you need it), gently push the almond sliver into the cut you just made. If you need a little "glue" a tiny dab of cream cheese works very well.
