

# DESMOND PUCKET

## POND SCUM

It's green, slimy, and full of worms—a fitting snack for a Desmond Pucket party! The trick is adding the gummy worms at just the right time. Try checking the Jell-O about 45 minutes in. If it's too set, just throw it in the microwave for a few seconds and try again.

**Ingredients**  
Green Jell-O  
Gummy Worms

### Directions

Fill up clear plastic glasses with green Jell-O. When it is almost done hardening, add some gummy worms.
