

DESMOND'S NOTES

Desmond's Perfect Ghost!

What you need:

white curtain sheers - these are the light see-through curtains inside heavier curtains.

Styrofoam ball, about the size of a soccer ball

String

a broom stick

① The most important thing to make a perfect ghost is curtain sheers, because they are light and blow in the wind in a ghostly way. Maybe your mom has old ones you can have!
you can even cut the bottom to make it ghostlier!

② Drape the sheer over the styrofoam ball.

③ Attach the stick and string to the styrofoam ball, now make your perfect ghost fly!

WORKS GREAT with the Phantom Knocker!
