ESCAPE FROM A VIDEO GAME

The only door out of the pitch-black lab is locked. Do you . . .

SELECT

- +1** Find a light switch and then look for the hidden key.
- +2** Force it open with your laser.
- +3** Knock to see if someone opens it.

Add up the points that correspond to your answers to reveal your gaming style and earn your reward.

5-8

Calm, Cool, and Collected

You are a laid-back master, known for your cool-headed tactics. Too many options can feel overwhelming, but that's okay because your gaming style allows you to step out of the action momentarily to assess any situation and pick the best path. You have the unique power of ALL FREEZE, which lets you stop time and all action, allowing you to move about and consider the best way forward.

9-11

Rowdy, Rambunctious, and Radical

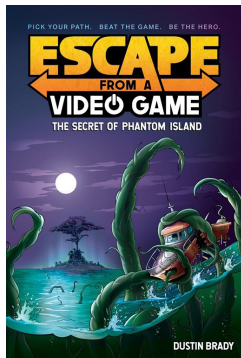

You are a wildfire with a reputation of being out of control and hard to hold back. But there's a reason for your over-the-top actions. Your gaming style gives you the power of being surrounded by a FIELD SHIELD, protecting you from heat, fire, force fields, and foes. Now you can be as fierce and fanatic as needed to level up.

12-15

Smart, Sly, and Stealthy

You are a thinker known for your smart solutions, but you're also a little mischievous. You can riddle through most situations quickly to find a way forward even if it involves setting a daring trap. You have the unique power of FUTURE VISION, letting you see the result of a plan before it even happens, allowing you to make necessary adjustments prior to jumping into action.
