

ESCAPE FROM A VIDEO GAME

CREATE AN IRL ESCAPE COURSE

GATHER MATERIALS:

- Sidewalk Chalk
- Garden Chairs
- Jump Rope
- Orange Cones
- Soccer Net
- Bucket
- Wiffle Bat
- Frisbee
- Hula Hoop
- Pinecones
- Balls
- Sticks

Any sports equipment and nature finds will come in handy for designing the course.

SEEK LOCATION:

A traffic-free stretch of cement or a grassy area. The ideal course will have both!

CEMENT COURSE:

With sidewalk chalk, draw exciting challenges and treacherous traps along the course.

Example:

- Create a Laser Force Field by drawing criss-crossing lines.

Challenge: Cross on one foot without touching a line.

- Include the Amazon River by drawing wavy lines.

Challenge: Leap over without making a splash.

Q: How could you draw a lava pit, alien slime, tornado, trap door, or quicksand?

Q: What else could you draw?

GRASS COURSE:

Build more areas for the course using the materials you've gathered.

Example:

- A jump rope turns into a tight rope over a snake pit
- Hula hoop becomes a ring of fire.

Q: What else could you add?

Q: What actions will you include: spin, duck, blast, thrash, jump, climb, crawl, run, dodge, scurry, swim?

RUNNING THE COURSE:

Every person gets a chance to escape! Some fun variations:

- Time each player
- Run the course backwards
- Blindfold a player and guide them through
- Travel the course balancing an orange on a spoon

Q: How else could you run the course?

EARN XP:

Every act of exceptional bravery, creativity, humor, and dedication earns 100 XP.
