

BREAKING CAT NEWS COLORING PAGES!

Get out your crayons, colored pencils, markers, ink, glitter—whatever won't bleed through the page—and give these inked BCN sketches some color!

(Note from Georgia: There's no "staying in the lines" in BCN sketches, because the lines break apart a lot. That's just how I draw. It looks **REAL WEIRD** when I try to close the lines, haha! Use the lines as guides and have fun!)
