

THE SPECIALIZATION QUIZ

You did it! You escaped and have earned the title of Reading Champion!
Now, it's time to discover your unique specialization!

Step 1: From the blocks below, select the allies, gear, and power-ups you collected on your adventure and total up your points. If you've played multiple times, select your favorite in each block.

Your Ally:

SELECT

- +0** Rocco the Rusty Robot - I guess the future doesn't have the most reliable tech after all! Rocco may break down a lot, but at least he's cheerful. He's very useful when he works, unfortunately that's less than half the time.
- +1** Lenny the Spikey Red Dinosaur - Lenny is a dinosaur that must have somehow traveled through time and became trapped like you. He may appear intimidating but feed him some candy corn and he'll be your bestie for life.
- +2** Betty the Magical Sheep - The result of a spell gone wrong; this magical sheep can zap you away in a flash of gold sparkles. She may not understand English, but Betty understands puns. She hates puns.

Your Gear:

SELECT

- +0** Eagle-Eye Goggles - Spot a mouse five hundred miles away with this futuristic pair of goggles.
- +1** Shimmering Invisi-shield - Escape your enemies (and prank your friends) with this shield that grants instant invisibility.
- +2** Teleportation Crystal - Warp to new locations and never miss the bus again with this teleportation crystal. Instructions not included.

Your Power-Up:

SELECT

- +0** Instant Intelligence - Download the contents of any book directly into your brain. Congratulations, you're now fluent in 7,000 languages.
- +1** Kinetic Knowledge - Knowledge is even more powerful when you control it. Manipulate brainwaves with your thoughts to detect threats and reveal hidden truths. You were right, your dog did eat your homework.
- +2** Summon Syllables - Saying a single word with enough gusto makes it reality. For example, the word "lift" becomes a platform or "crash" becomes a wrecking ball. Sorry dessert enthusiasts, "ice cream" is two words.

Step 2: Add up your points. Use the total to discover your specialization.

0-2

Cunning Crusader

You're a tech genius with a powerful strategic mind. Some run headfirst into danger, but you like to have your opponent defeated before even crossing them. People around the world will know that you're the Reading Champion with a cunning glow.

3-4

Silent Savior

You are a master of stealth, which is why you're always ten steps ahead of everyone else. When most people are sitting and planning, you're already out the door. Your quick thinking will get you out of any bind, that's why people say you're the hardest Reading Champion to find.

5-6

Magic Mastermind

You're a magic savant, wielding the mystical with the wave of your hand. There isn't a problem that you can't fix with a few magic words. You're a reading wizard, people say, with a wand you'll use to save the day.

Step 3: Add up the XP you collected on your journey to discover your power level.

XP Range	LEVEL
1 XP - 500 XP	Billion You are quite the master of reading
501 XP - 1,000 XP	Zillion Nothing replenishes you quite like a good book
1,001 XP - 3,000 XP	Quadrillion Literature comes to you like science comes to Einstein
3,001 XP +	Infinity Libraries and bookstores alike will remember who you are

Final Step: Record your results on your certificate
